

New York Stock Market

New York, February 11.—The stock market was affected to-day by the impending holiday inclination of professional operators to close up contracts with a two days' closed interval to go through. The open contracts proved to be largely on the bear side of the market. The day's advances were not well held.

Much was in the speculation of the intention of President Taft to make a speech in New York some time to-morrow. The administration attitude towards the situation problem, the intention was broadly conveyed in the current gossip of the stock market that this speech was to be of a reassuring character to capital and finance in its statement of intentions. Depreciation of alarm at sections of the consequences to follow the possible decision by the Supreme Court in favor of the government in the American Tobacco and Standard Oil cases was said to be expected of this speech.

Developments in the money market were calculated to stimulate an investment demand for securities.

The growing abundance of banking resources in foreign markets induced expectation of a prolonged period of ease.

Discussion of supposed trade recession dropped out of sight in presence of the upward movement of stocks. Rumors were renewed of progress in the upward movement of stocks. Rumors were renewed of progress in the projected merger of the steel companies. Buying of iron by the United States Steel Corporation below the recent market price was under some suspicion of a purpose to steady the market for sentimental effect on buyers of unfinished products.

The announced stock dividend of the American Tobacco Company has been fore-shadowed in the advance in the prices of shares.

A heavy contraction in the actual loan item of the banks reflected the stock market liquidation of the week.

The actual cash item of the banks was explained discrepancy of that item last week with the known volume of money by which some \$15,000,000 of bank cash apparently disappeared. The possible source of this great demand for cash formed a subject of uneasy conjecture during all this week.

Bonds were firm. Total sales, par value, \$2,665,000. United States 3's coupon, and the 4's registered, have advanced 1-4 and the 5's registered, 1-2, while the 4's coupon, on call, 3-4 cent. In the price on call this week. Total sales to-day, 744,000 shares.

New York, February 11.—Money on call easy, 2 1/2-3 per cent; ruling rate, 2 1/2-3; closing, 2 1/2-3; offered, 2 1/2-3. Time money, 4-5 per cent; 60 days, 4-5 per cent; 90 days, 4-5 per cent; 6 months, 4-5 per cent. Prime mercantile paper, 4-5 per cent. Sterling exchange steady, with actual business in bankers' bills at \$4.30-4.35 for 60 days' bills, and \$4.35-4.40 for 90 days' bills. \$4.35-4.40 for 60 days' bills, \$4.35-4.40 for 90 days' bills. \$4.35-4.40 for 60 days' bills, \$4.35-4.40 for 90 days' bills.
